FINANCE, LEGAL & SAFETY COMMITTEE

October 10, 2023

10:30 a.m.

ATTENDANCE:

Legislators: Chair Sauerbrey, Ciotoli, Brown, Flesher, Monell, Mullen, Standinger, Roberts, and Weston

Staff: Legislative Clerk Haskell, County Attorney DeWind, Treasurer McFadden, Deputy Treasurer Chandler, Safety Officer Holbrook, Personnel Officer Parke

• APPROVAL OF MINUTES:

- Legislator Ciotoli asked for a motion to approve the September 12, 2023, minutes. Legislator Monell made the motion seconded by Legislator Mullen and was unanimously carried.

• FINANCIAL:

- Legal and Safety's budgets are tracking well, however the Liability Fund could potentially need monies transferred into it for the payment of insurance expenses for newly purchased vehicles.

• OLD BUSINESS:

- Litigation: Currently there is nothing new to report; current cases are continuing and there have been no new claims.
- In Rem Closings and Appraisals have been completed for the last cycle. Legal is exploring bringing appraisals in house or using a contract services. Mr. DeWind has received several claims for previous years In Rems from a Utica law firm with some of these claims beyond the two-year cut off. The 2023 In Rem profits are being held in a trust fund while waiting for guidance from New York State. A list of sold properties, back taxes, and profits made are being compiled and it may be possible that the County will be able to claim fees under the new process.

• NEW BUSINESS:

- CDL Drug and Alcohol Screening Contract: The current contract expires at the end of this year. The County is in a consortium with local municipalities for this service and Safety Officer Holbrook is researching

best value to determine who would be the best fit for the Consortium. Ms. Holbrook will be presenting a resolution next month for the 2024 contract for legislative approval.

- Personnel Legal Services Contract: This contract is set to expire at the end of this year. The County is currently paying a flat fee and Roemer has offered to renew for three years. In prior negotiations Roemer indicated it does not offer an hourly rate, but the County receives value due to arbitration negotiations included in the flat monthly rate. Legislators would like a Request For Proposals (RFP) submitted to relevant firms and would like the opportunity to sit in on any interviews in conjunction with Personnel and the County Attorney's Office.
- JUUL Settlement Agreement: NYS Attorney General's Office recently updated counties on the ongoing social media suits and the JUUL lawsuit settlement. This lawsuit was brought on account of how products were marketed to children. The total payout is two hundred and sixty-two million dollars (\$262,000,000 USD) nationwide with one hundred twelve million dollars (\$112,000,000 USD) coming to New York State over eight years and Fifty-Six Million dollars (\$56,000,000 USD) being disbursed to counties and New York City. More information will be forthcoming about the local share, how it may be used, and reporting procedures. Public Health is aware of the settlement with information coming through NYSACHO.
- New York Municipal Insurance Reciprocal (NYMIR) recently awarded Tioga County the 2023 Risk Management Award for the successful mitigation of risks and claims. Chair Sauerbrey praised Ms. Holbrook for tightening security at the Ronald E. Dougherty Building and Legislator Mullen noted his thanks for the addition of an Automated External Deliberator (AED) machine at the Board of Elections.

- PERSONNEL:

- A late file resolution has been submitted for the hiring of a paralegal for the Department of Social Services Law Department. This will create an open position for the Secretary to the First Assistant County Attorney.

- RESOLUTIONS:

- RECOGNIZE STEPHANIE CARRIGG'S THIRTY-FIVE YEARS OF SERVICE TO TIOGA COUNTY; ESTABLISH A NEW BUDGET LINE, MODIFY 2023 BUDGET AND TRANSFER FUNDS PUBLIC DEFENDER; and APPOINT PARALEGAL LAW DEPARTMENT were moved into full Legislative Session without further questions.

I. INTRODUCTION

A. Background - Because of the particular importance of assuring that safety sensitive employees are free of the effects of drug and alcohol use, federal law requires that employers of persons who hold Commercial Driver's Licenses (CDL's)

institute a policy requiring drug and alcohol testing of safety sensitive employees as well as education and training of employees and supervisors. It is the purpose of this Drug and Alcohol Testing Policy to comply with the requirements of regulations of the Federal Highway Administration to assure safe and healthy operations. Appendix A Drug and Alcohol Testing Job Titles subject to testing is located on the County Intranet "Employee Handbook-EH Forms".

Part 40, entitled "Procedures for Transportation Workplace Drug and Alcohol Testing Programs" setting standards for the collection and testing of urine specimens and the administration of breath alcohol tests.
 6. This policy is intended to be in full compliance with the foregoing regulations. If there is any inconsistency between those regulations and the provisions of this Policy, or if this Policy fails to cover anything contained in those regulations, the provisions of the regulations shall prevail and shall be considered to be a part of this Policy. The person who makes the determination that reasonable suspicion exists to conduct an alcohol test shall not conduct the alcohol test of the employee.
 - b. Alcohol testing is authorized only if the observations stated above are made during, just preceding, or just after the period of the workday that the employee is ready to perform or immediately available to perform his duties. When a reasonable suspicion alcohol test ordered, the employee shall not perform or continue to perform safety sensitive functions until (1) an alcohol test is administered and the employee's alcohol concentration measures less than 0.02, or (2) 24 hours have elapsed following the determination that there is a reasonable suspicion to believe that the employee has violated the restrictions on alcohol use.
3. Post Accident Testing (Appendix C Drug and Alcohol Testing Fitness for Duty Reasonable Suspicion and Post Accident Testing located on the County Intranet "Employee Handbook-EH Forms").

- a. For purposes of this Policy, the term "accident" means an occurrence associated with the operation of a vehicle causing (1) the death of an individual, (2) bodily injury to an individual who receives medical treatment, or (3) disabling damage to one or more vehicles requiring the vehicle to be transported away from the scene by a tow truck or other vehicle. The phrase "disabling damage" means damage which precludes departure of any vehicle from the scene of the occurrence in its usual manner in daylight after simple repairs.
 - b. Each employee performing safety sensitive functions with respect to a vehicle involved in an accident shall be tested for alcohol and drugs if:
 - The accident involves a human fatality;
 - The accident involves bodily injury with immediate medical treatment away from the scene and CDL operator cited for a moving violation;
 - Disabling damage to any motor vehicle requiring tow away and CDL operator cites for a moving violation.
 - c. An employee who is subject to post-accident testing shall remain readily available for such testing or may be deemed to have refused to submit to testing. Nothing in this paragraph shall be construed to require the delay of necessary medical attention for injured people following an accident for the period necessary to obtain assistance in responding to the accident, or to obtain necessary emergency medical care.
 - d. A post-accident alcohol test shall be administered within 8 hours of the accident. A post-accident drug test shall be administered within 32 hours following the accident.
4. Random Testing (Appendix B Drug and Alcohol Testing Random Drug Testing Notification located on the County Intranet "Employee Handbook-EH Forms").
- a. Any employee performing a safety sensitive function shall be subject to random drug and alcohol testing.
 - b. The selection of employees for random alcohol or drug testing shall be made by a scientifically valid method, such as a random number table or a computer based random number generator that is matched with the employee's social security number, payroll identification number or other comparable identifying number. Each employee shall have an equal chance of being tested each time selections are made. An employee may be selected for both types of tests at the same time.
 - c. The number of random drug tests conducted each year shall be consistent with the minimum annual percentage testing rate as determined by the Federal Motor Carrier Safety Administration.

-
- d. Random alcohol and drug tests are unannounced, and the dates for administering them shall be spread reasonably throughout the calendar year.
 - e. Each employee who is notified of selection for random alcohol and/or drug testing shall proceed to the test site immediately, or, if the employee is performing a safety sensitive function at the time of notification, the employee shall cease to perform the safety sensitive function and proceed to the testing site as soon as possible.
 - f. An employee shall only be tested for alcohol while the employee is ready to, immediately available to or performing safety sensitive functions, just before the employee is ready to or immediately available to perform safety sensitive functions, or just after the employee has ceased performing such functions.

5. Return to Duty Testing

- a. Before an employee returns to duty requiring the performance of a safety sensitive function after engaging in alcohol misuse, the employee shall undergo a return to duty alcohol test with a result indicating an alcohol concentration of less than 0.02.
- b. Before an employee returns to duty requiring the performance of a safety sensitive function after engaging in drug use, the employee shall undergo a return to duty drug test with a result indicating a verified negative result for drug use.

6. Follow-up Testing

- a. Following a determination by a substance abuse professional that an employee is in need of assistance in resolving problems associated with alcohol misuse and/or use of drugs, the employee shall be subject to unannounced follow-up alcohol and/or drug testing as directed by a substance abuse professional.
 - b. The number and frequency of follow-up tests shall be as directed by the substance abuse professional and shall consist of at least six tests in the first twelve months following the employee's return to duty.
 - c. The employee's supervisor may direct the employee to undergo return-to-duty and follow-up testing for both alcohol and drugs, if the substance abuse professional determines that return-to-duty and follow-up testing for both alcohol and drugs is necessary for that employee.
 - d. Follow-up testing shall not exceed 60 months from the date of the employee's return to duty.
 - e. The substance abuse professional may terminate the requirement for follow-up testing at any time after the first six tests have been administered if the substance abuse professional determines that such testing is no longer necessary.
-

V. COLLECTION AND ANALYSIS

- A. All collection of urine or breath for random testing shall be performed at a facility or facilities to be designated by the County, and for all other testing required by this Policy, at the site of an independent health provider selected by the Safety Officer. Employees shall be advised of the location of the testing site during training on alcohol and drugs, and by a supervisor at the time testing is required.
- B. Collection and testing of urine and breath shall be in accordance with 49 C.F.R. Part 40, Procedures for Transportation Workplace Drug and Alcohol Testing Programs.
- C. The collection site for urine samples will provide a privacy enclosure for urination, a toilet, a suitable, clean, writing surface, and a water source for hand washing which, if practicable, will be outside the privacy enclosure. Any water source within the privacy enclosure will be secured to prevent its use to adulterate the urine sample.
- D. The employee will be assured of privacy during urination except in circumstances where there is evidence that the prior sample was altered, adulterated, or tampered with, in which case a retest will be required, and privacy will not be assured.
- E. The urine specimen must be split and poured into two specimen bottles. This provides the employee with the option of having an analysis of the split sample performed at a separate laboratory if the primary specimen test result is verified positive.
- F. Urine testing will be conducted at a laboratory certified by the United States Department of Health and Human Services.
- G. All drug testing laboratory results will be reviewed by a qualified Medical Review Officer (MRO) to verify and validate test results. An MRO is a licensed physician responsible for receiving laboratory results generated by a drug testing program who has knowledge of substance abuse disorders and has relevant training and qualifications.
- H. The MRO will review and interpret all confirmed positive tests by reviewing the employee's medical history, including any medical records and biomedical information provided, affording the employee a reasonable opportunity to discuss the test result, and deciding whether there is a legitimate medical explanation for the result including legally prescribed medication.
- I. The MRO will notify each employee who has a verified positive test that the employee has 72 hours in which to request a test of the split specimen at a separate certified laboratory.
- J. Upon completion of the MRO'S review the MRO shall report each verified test result to the Safety Officer. The employee's supervisor will be informed by the Safety Officer of a verified positive test result, and the employee will be removed from safety sensitive functions and shall be subject to the consequences outlined in Article VIII of this Policy. Removal from safety sensitive functions will be immediate and will not await the result of any requested retest.

-
- K. An employee requesting a drug retest shall pay the cost of the additional analysis and all costs associated with the transfer of the specimen to another laboratory including shipping and handling. If the retest results in the employee passing the drug test, Tioga County shall reimburse any costs collected in advance. Selection of the certified laboratory for retests will be made by the Safety Officer or the MRO.

VI. ALCOHOL TESTING PROCEDURES

- A. Alcohol testing shall be conducted by collection of a breath specimen through the use of an evidential breath testing device (EBT) that is approved by the National Highway Traffic Safety Administration. The test must be performed by a breath alcohol technician (BAT), who is trained to proficiency in the operation of the EBT being used and in the alcohol testing procedures specified in the regulations.
- B. The persons who will serve as BAT's shall be personnel employed by a health facility selected by the County. The health facility will be identified to employees during training and by a supervisor at the time of selection for an alcohol test.
- C. Alcohol tests will be conducted at a site that provides privacy to the individual being tested.
- D. Upon arrival at the alcohol collection site, the employee must provide positive identification to the BAT. After testing procedures are explained to the employee, the employee and the BAT must complete, date and sign the alcohol testing form.
- E. Screening Test
1. The BAT will open an individually sealed, disposable mouthpiece in view of the employee and attach it to the EBT. The BAT will instruct the employee to blow forcefully into the mouthpiece for at least six seconds or until an adequate amount of breath has been obtained.
 2. Following the screening test, the BAT must show the employee the result displayed on the EBT or a printed result. If the result of the screening test is an alcohol concentration of less than 0.02, no further testing is required, and the test will be reported to the employer as a negative test. The employee may then return to his or her safety sensitive position.
- F. Confirmation Test
1. If the result of the screening test is an alcohol concentration of 0.02 or greater, a confirmation test must be performed.
 2. The confirmation test must be conducted at least 15 minutes, but not more than 20 minutes, after completion of the initial test. The employee will be instructed not to eat, drink, or put any object or substance in his/her mouth, and will be instructed not to belch to the extent possible while awaiting the confirmation test. The confirmation test will be performed whether or not the employee complies with such instructions.
 3. The confirmation test is conducted using the same procedures as the screening test. A new mouthpiece will be used.
-

4. If the initial and confirmatory test results are not identical, the confirmation test result is deemed to be the final result.
5. The BAT will transmit all results to the Safety Officer in a confidential manner. If the employee must be removed from safety sensitive duties, the BAT will notify the Safety Officer immediately. The employee's supervisor will be informed by the Safety Officer, and the employee will be removed from safety sensitive functions by the supervisor.
6. Where a random, reasonable suspicion, or post-accident alcohol test indicates an alcohol concentration of .02 percent or more but less than .04 percent, the employee shall not perform safety sensitive functions until at least 24 hours after such test. Only if there are other duties available for the employee to perform, during such time, shall the employee receive the employee's regular rate of pay after the test. An employee, for whom other duties are not available, may use any available vacation day or personal time. Sick time shall not be available for this purpose.
7. On the day following a random, reasonable suspicion, or post-accident alcohol test indicating an alcohol concentration of .02 percent or more but less than .04 percent, the employee may be required to submit to another alcohol test, whether or not the employee is reasonably suspected of alcohol misuse. In the event this test indicates an alcohol concentration of .02 percent or more, but less than .04 percent, the employee shall not perform safety sensitive functions until at least 24 hours after such test; and shall immediately be sent home without pay. The provisions of this paragraph are not required by federal law or regulation.

VII. VIOLATIONS

A. The following conduct shall be considered a Major Violation of this Policy:

1. Having a verified positive result after having taken a drug or alcohol test as required by this policy. For purposes of this subparagraph A, a verified positive result includes an alcohol test indicating an alcohol concentration of .04 percent or more.
2. Using alcohol while performing safety sensitive functions.
3. Using alcohol within eight hours after an accident requiring a post-accident alcohol test or until the employee undergoes a post-accident alcohol test, whichever occurs first.
4. Refusal to submit to a post-accident alcohol or drug test, a random alcohol or drug test, a reasonable suspicion alcohol or drug test, or a follow-up alcohol or drug test required by this policy.
5. Failure to produce an adequate urine or breath sample when selected for testing, where such failure is not consistent with the requirements of 49 C.F.R. Part 40.
6. Altering, adulterating, or tampering with a urine sample or a breath sample used in a drug or alcohol test required by this Policy, or otherwise distorting the result of a required drug or alcohol test or attempting to do any of the foregoing.

7. Refusal to sign consents or releases required by federal regulations in connection with drug or alcohol tests.
 8. Reporting for duty or remaining on duty requiring the performance of safety sensitive functions while having an alcohol concentration of 0.04 or greater.
 9. Reporting for duty or remaining on duty requiring the performance of safety sensitive functions when the employee uses any of the drugs prohibited by this Policy, except when the use is pursuant to the instructions of a physician who has advised the employee that the drug does not adversely affect the employee's ability to operate safely a commercial motor vehicle.
 10. Failure to comply with the requirements of a treatment or rehabilitation program prescribed by a substance abuse professional while on authorized leave as a result of a violation of this policy.
- B. The following conduct shall be considered a Minor Violation of this Policy:

 2. Performing safety sensitive functions within four hours after using alcohol.

VIII. CONSEQUENCES

- A. Each employee who commits a Major Violation or a Minor Violation of this Policy shall be immediately removed from safety sensitive functions, as required by federal law and regulations. In addition, although not required by federal law or regulation:
1. Any employee who commits a Minor Violation shall be subject to progressive disciplinary action up to and including termination.
 2. Any employee who commits a Major Violation, if not terminated pursuant to paragraph 3 or 4, shall be placed on an involuntary, unpaid leave of absence not to exceed eighteen (18) months. During such leave of absence, the employee may use accrued benefits such as sick time, vacation time, compensatory time, etc. Nothing in this Article VIII shall be construed to prevent the imposition of progressive discipline up to and including termination for conduct of such employee while under the influence of alcohol or while using any prohibited drugs.
 3. Any employee who commits a Major Violation involving the death of a person or bodily injury to an individual who immediately receives medical treatment away from the scene of the accident shall be subject to progressive disciplinary action up to and including termination.
 4. The employment of any employee who commits a Major Violation of this Policy twice within a five-year period shall be terminated immediately.
 5. Any disciplinary steps taken under this policy shall be in accordance with Section 75 of the Civil Service Law.
- B. Each employee who has engaged in conduct prohibited by this Policy shall be advised of the resources available to the employee in evaluating and resolving problems associated with the misuse of alcohol and the use

of controlled substances, including the names, addresses, and telephone numbers of substance abuse professionals and counseling and treatment programs.

C. Each employee who engages in conduct prohibited by this Policy and has not had his/her employment terminated shall be evaluated by a substance abuse professional who shall determine what assistance, if any, the employee needs in resolving problems associated with alcohol misuse and drug abuse.

D. Each employee identified as needing assistance in resolving problems associated with alcohol misuse or drug use shall be referred to a treatment or rehabilitation program and shall be evaluated by a substance abuse professional to determine whether the employee has properly followed and completed such rehabilitation or treatment program.

E. An employee who has violated this Policy and has not had his or her employment terminated shall qualify for return to duty by following the recommendations of a substance abuse professional including completion of a treatment or rehabilitation program, as certified by such substance abuse professional, and by passing a return to duty drug test or alcohol test or both, as specified by the substance abuse professional. The employee shall be allowed up to eighteen (18) months to return to duty. Failure to return to duty within said time period shall result in disciplinary action up to and including termination.

F. An employee who has violated this Policy and undertakes a treatment or rehabilitation program upon the recommendation of a substance abuse professional shall bear the expense of such treatment or rehabilitation program. Medical benefits, if available to the employee, may be used for such purposes.

G. Any employee who returns to safety sensitive functions after having satisfied the requirements of this Article VIII shall be subject to follow-up testing as provided in Article IV (6) of this Policy.

IX. EMPLOYEE RIGHTS

A. Testing and Waiting Time

All time spent on testing, including reasonable travel time of not more than one hour to and from the testing facility, is paid time under regular pay status, including overtime, if applicable. Employees will be paid while being tested for the time away from duty, or, if their duty assignment has ended, they will be paid up to the time they are released from the testing site. All costs of testing under this Policy shall be borne by the County, except as specifically provided in article V (K).

B. Confidentiality

The County shall make every effort to assure confidentiality throughout the testing process and to protect the individual dignity and right to privacy of all employees. Personal data regarding the drug testing results and rehabilitation program evaluations will be forwarded only to the Safety

C. Employee Assistance Program

The Employee Assistance Program is open to all employees and their families who voluntarily seek its assistance, except that the EAP may not be used to avoid the taking of a drug or alcohol test when an employee has been selected for testing under this Policy. An employee who has been selected to take a required drug or alcohol test may not avoid the obligation to take the test by past or future participation in the EAP. Voluntary participation in the EAP is confidential and will not adversely affect an employee's employment with the County.

D. Return to Work

Any employee qualified to return to duty pursuant to this Policy has the right to return to duty in the same position immediately, subject to the provisions of Section 72 of the Civil Service Law.

- E. The County shall make reasonable efforts to afford employees the right to union representation whenever an employee is directed to submit to an alcohol or drug test. Such representation shall not interfere with, or more than minimally delay, the movement of the employee to the testing site and shall not include the presence of a union representative when the independent health provider referred to in Article V (A) is conducting the testing, collection or required preliminary procedures (interview, identification, consents, etc.).
